

NAPA - Instructions for DNA Sample Submissions to NEOGEN

The preferred format is EXCEL but a printable PDF form is also available.

Download this EXCEL form from the NAPA website at PIEDMONTESE.ORG

Select "enable editing" from the page-top menu bar and SAVE the file to your computer

That saved file will be your template to use for 2022 orders.

For each time you place an order in 2022:

Open the EXCEL template -

Save it with the NAME: NAPA DNA TEST REQUEST date _____ [add the date]

Complete the Order Form on your computer.

SAVE

Email the completed form to NAPA at: NAPA.piedmontese@gmail.com

If using the printed PDF form, complete and scan and email to NAPA.

NAPA will submit your DNA testing request to NEOGEN via their LIMS system

NAPA will email you with an ORDER MANIFEST

PRINT the ORDER MANIFEST and mail it to NEOGEN with your samples

DO NOT SEND PAYMENT FOR TESTING WITH THE SAMPLES

NAPA will invoice you for testing.

Submitting Samples:

Be sure to clearly label sample cards or vials and match them to the ANIMAL ID on manifest

PADDED envelopes or boxes are preferred for shipping

Package samples + MANIFEST in protected envelope or box

MARK OUTSIDE of package with "NAPA PIEDMONTESE"

Mail to:

**Neogen Genomics
4131 N. 48th Street
Lincoln, NE 68504**

Results:

Once testing is complete & your payment has been received by NAPA, results will be sent.

General Information:

In order to verify parentage by SNP, parent(s) must have the same type of DNA profile on file at the Lab.

If one or both parents have only an STR-DNA profile at the Lab, then an STR-Test will be necessary on the offspring in order to make parentage comparisons.

Note: MOST parent animals tested after 2013 have SNP profiles available.

If parent animals are not yet DNA tested, please also submit a sample on the parent animal(s) if possible.

ITALIAN registered parents (AI sires or ET dams) are identified by ITALIAN reg. number as BARCODE

Italian sires/dams do not have TATTOO numbers, so use their NAME to identify.

If you do not know the TATTOO or the BARCODE of parent animals, most can be located in the NAPA online pedigree search engine at piedmontese.org

Questions? - Contact Stacy at (701) 578-2547 or email NAPA.piedmontese@gmail.com
